### COUNTY LAUNCHES RECOVERY DASHBOARD

The County of Santa Cruz is pleased to announce the launch of an online dashboard tracking CZU Lightning Fire rebuilding efforts.

The dashboard monitors single-family dwelling permits, including completed permits and the status of incomplete permits. It also tracks total permits issued by type, which may include electrical, grading, fire and other types of permits. The dashboard is one several metrics the County uses to monitor recovery progress.

To view the dashboard, go to <https://tinyurl.com/CZURecoveryDashboard>.

The August 2020 CZU Fire was one of a series of fires to strike Northern California following an unusual thunderstorm that produced 11,000 bolts of lightning. It was the most devastating fire in County history.

Residents should stay prepared by signing up for CodeRed alerts at [SCR911.org](http://SCR911.org). Residents can also look up their evacuation zone at <https://community.zonehaven.com>, and should include the information in their family's disaster preparedness planning efforts.
