

County Plan #	Objective Title	Objective	Target
#121	Housing Element	By June 2021, Planning will initiate work on the Housing Element Update, for adoption and submittal to the State by 2023 as required by State law. □	Housing Element Update
Measurement			
Update of the Housing Element begins with an inventory of parcels that provide opportunities for future housing development.			
Collection Method			
Analysis of development data, including issued permits, assessor's data, zoning, and location near transit and other resources.			
Data			
Year			
2019 (Baseline)	Work on the Housing Element had not begun		
2020-2021	The Planning Department has set up an internal GIS with parcel, zoning, and permit data that highlights opportunity sites that can be available in the next 20 years for larger scale multi-family and mixed use development. The GIS will be the basis for the inventory of housing sites that is required in the Housing Element update.
