

Juvenile Hall has 6 Edovo tablets which are available for us by all youth throughout the day.

Music and movie entertainment are available to youth on the tablets; and can be earned and purchased with the points youth earn when completing assignments on the tablet. Youth can also be given points from staff, for work completed or positive behavior on the units. All youths' work is monitored, and entertainment is approved by staff.

There are a wide variety of programs available in multiple languages for youth to choose to work on.

Language and Literacy

Basic education, literacy, and language-learning opportunities on Edovo support the educational achievements of persons entering the system at any learning level. Video, audio, and written based courses in this area ensure the opportunity for every user to access the full range of content.

Academic Achievement

Course in science, social studies, language arts and math follow core curriculum focus areas, in addition to college credit earning course for those seeking higher learning objectives.

Professional Life, Law, and Finances

Youth can access basic legal information and engage in specialized vocational and soft skills programming to jumpstart the career exploration process.

Health and Wellness

Our health and wellness material spans from meditational practice, treatment, and recovery, to personal health. The courses are designed for a population with diverse needs and health backgrounds, seeking recover, self-improvement, and general well-being.

Religious Experience

Religious study courses and videos allows youth to learn about world religions.

Exploration

Exploration options encourage youth towards knowledge and creative stimulation beyond traditional academic framework. Videos and learning opportunities for daily inspiration and parenting resources.
