<p>Increase the number of CAL section II/widget II renewals submitted by the 11/1 deadline annually, in order to not have to return to the Board. Process. 86% were renewed via CAL authority prior to 11/1.</p>			

December 2021

Sven Stafford commented
 @Argelia Soria I'm fine with documenting the process that you all achieved this year, and then calling this objective complete in June. I think we can demonstrate a significant improvement over this time last year without much trouble, and we can also report no continuity of service issues due to contracting I would imagine.  @Sven Stafford I'd like to revise this objective. Unfortunately, the way its currently written is unattainable and not the original intent. The intent was to increase the number of CAL section II/widget II renewals submitted by the 11/1 deadline annually, in order to not have to return to the Board. Our first key step was to establish a baseline this year which

establish a baseline this year which
was accomplished. First step,
completed. 86% were renewed via
CAL authority prior to 11/1. [less](#)
